Int. J. Pres. Ves. & Piping **52** (1992) 455–457

CONTENTS OF VOLUME 52

Number 1

Bifurcation Creep Buckling Analysis of Circular Cylindrical Shell under Axial Compression 1
N. MIYAZAKI, S. HAGIHARA & T. MUNAKATA (Japan)

Some Aspects of the Evaluation of Irregularly Oriented Crack-Like Defects . . 11
SHAN-TUNG TU (Sweden)

Thermal and Stress Analyses of the Reactor Pressure Vessel Lower Head of the Three Mile Island Unit 2 25
K. HASHIMOTO, K. ONIZAWA, R. KURIHARA, S. KAWASAKI & K. SODA (Japan)

The Influence of Testing Conditions on Burst-Pressure Assessment for Inconel Tubing 41
P. HERNALSTEEN (Belgium)

Pipelines Weakened by Oblong Corrosion Flaws 59
A. H. BARAOV (Russia)

Structural-Integrity Assessment Procedures 69
D. L. THOMAS (UK)

Some Approaches to the Evaluation of Permissible Defects in Welds of Equipment and Piping for NPP with PWR and FBR 83
G. P. KARZOV, V. P. ULIN & B. T. TIMOFEEV (Russia)

Improved Evaluation of Stress-Intensity Factors of Cracks at Notches 97
T. E. TAY, W. WANG & K. Y. LAM (Singapore)

Efficient Methods Applied to the Real-Time Analysis of Temperatures, Displacements, and Stresses for Complex Structures 111
WANG XIAONING & WANG XUCHENG (Peoples' Republic of China)

An Exact Elasto-Plastic Solution for an Open-Ended Thick-Walled Cylinder of a Strain-Hardening Material 129
GAO XIN-LIN (People's Republic of China)

Research Note

Effects of Outside Diameter, Wall Thickness and Bend Radius on Ovality of Nylon Tube during Bending Operation 145
D. Z. LUO (UK)

Announcements 149

Int. J. Pres. Ves. & Piping (**52**) (1992)—© 1992 Elsevier Science Publishers Ltd, England. Printed in Northern Ireland

Number 2

The Influence of Temperature and Prior Cold Work on the Strain-Hardening Parameters of a Type 316 LN Stainless Steel 151
K. G. SAMUEL, S. L. MANNAN & V. M. RADHAKRISHNAN (India)

Methods for the Evaluation of Crack Resistance of Reactor P.V. Materials under Conditions of Thermal Shock 159
B. T. TIMOFEEV, V. A. PETROV, G. P. KARZOV & V. V. ANIKOVSKY (Russia)

A Study of Fatigue Crack Growth IS-1020 Steel under Constant-Amplitude Loading 177
S. B. SINGH & RAGHUVIR KUMAR (India)

Large Deflection Analysis of a Shallow Spherical Shell on a Pasternak Foundation 189
D. N. PALIWAL & VIJAY BHALLA (India)

Macro Pattern of Fatigue-Broken Surface of Inclined Surface Cracks under Biaxial Loading 201
ZHAO-JING ZENG & SHU-HO DAI (People's Republic of China)

Environmental Effects on the Crack Growth Properties of Alloy 600 217
N. KONDA, K. TOYAMA, K. YAMANAKA & K. TOKIMASA (Japan)

Investigation of Surface Crack Opening Displacement and its Application in Pressure Vessels and Piping 227
DING-ZHONG FENG & QI-CHAO HONG (People's Republic of China)

A Method of Design by Analysis to Evaluate Cylinder–Cylinder Intersection under Internal Pressure 241
SHEN HSUN-WEI & LI YOUN-SHENG (People's Republic of China)

The Conservatism of the Net-section Stress Criterion for the Failure of Cracked Stainless Steel Piping 257
E. SMITH (UK)

Primary-Creep Crack Growth at Room Temperature in Surface-Cracked Pipes . 273
F. W. BRUST & B. N. LEIS (USA)

Announcements 299

Number 3

Fracture-Resistance Evaluation for Piping Materials of BWR Nuclear Power Plants of the RBMK type 303
B. T. TIMOFEEV, R. P. VINOGRADOV, S. P. GENERALOVA & T. A. CHERNAENKO (Russia)

The Resistance to Crack Growth of Different Regions of Weldments in a Real Structure 313
S. SEDMAK, B. PETROVSKI & A. SEDMAK (Yugoslavia)

The Cyclic J–R Curve and Upper-Limit Characteristic of Fatigue-Crack Growth in $2\frac{1}{2}$ Cr–Mo Steel 337
H. KOBAYASHI, T. KUSUMOTO & H. NAKAZAWA (Japan)

Development of an Automated Fracture Assessment System for Nuclear Structures 357
TIMO P. J. MIKKOLA & HEIKKI RAIKO (Finland)

Stress Intensity Factor Solution for Thin-walled Straight Pipes DN700 under Bending 379
L. GRUTER, W. SETZ (Germany), S. BHANDARI, H. DESCHANELS & C. FAIDY (France)

Modification of the Bree Diagram in Presence of Primary Transient Loads . . . 391
R. CAPELLO, F. CESARI & A. REBORA (Italy)

A Sensitivity Study in Probabilistic Fracture Mechanics Analysis of Light Water Reactor Carbon Steel Pipe 403
T. FUJIOKA & K. KASHIMA (Japan)

Analytical Prediction on the Pump-induced Pulsating Pressure in a Reactor Coolant Pipe 417
KYE BOCK LEE, IN YOUNG IM & SANG KEUN LEE (Korea)

Influence of Sour Environment on Hydrogen Embrittlement of Steel for Oil Country Tubular Goods (OCTG) 427
E. MAZANCOVÁ, S. HAVEL & K. MAZANEC (Czechoslovakia)

Compound Cracks in Pipes Under Combined Bending and Tension 439
AKRAM ZAHOOR (USA)

Announcement 453
